RULES & REGULATIONS

1. No outside electrical equipment, including generators, allowed without prior approval from American AVC.
2. Engineering is obligated to refuse connections where wiring is not in accordance with local electric code.
3. Engineering reserves the right to require supervising electrician to inspect and direct the installation /dismantle of non-facility power equipment.
4. A supervising electrician is required, on a time/material basis, when TOTAL power requirement exceed 600 AMPS.
5. All electrical work done in a non-weather controlled environment requires a supervising electrician on a stand by basis as deemed necessary.
6. Engineering will determine Labor requirements. Each call carries a 2/Hour minimum.
7. All electrical charges will be billed through the master account only.
